EXTRAORDINARY ART.
LASTING COLLECTIONS.

Selected works. Collected with care.

The Moir Collectors Catalog brings together selected works from Ten Moir Gallery's 2026 artist challenges and award programs. Issue No. 02 is designed as a viewing publication: a place to encounter individual works, discover artists, and revisit selections beyond the exhibition window.

A catalog should leave room for looking.

This issue moves through several distinct themes, but the intention remains consistent: to give each work enough space to be seen on its own terms. Across painting, drawing, photography, digital media, sculpture, and mixed practice, the selected artists bring different forms of attention to memory, nature, place, movement, identity, and imagination.

Rather than flattening those differences into a single visual language, this catalog lets the artwork carry the color while the page remains quiet around it.

Behind the Mask

Identity, concealment, performance, and transformation come forward in this selection. Some works approach the mask as literal object, others as psychological metaphor—what we reveal, what we hide, and the tension between the two.

Light & Shadow

Light defines what is visible; shadow gives it depth. This selection explores contrast as atmosphere, structure, and emotional language, moving from stark graphic forms to subtle tonal shifts and moments held at the edge of visibility.

Change rarely arrives in a straight line. These works move through tension and release, movement and pause, loss and renewal. Water becomes both subject and metaphor while other works trace emotional, social, and internal currents.

Lucid Dreams

Lucid Dreams gathers works that blur the boundaries between the waking world and the subconscious. These selected pieces invite viewers into spaces where logic loosens, symbolism deepens, and imagination takes on vivid form.

Art deserves more than a result. It deserves a place to return to.

Ten Moir Gallery presents international online art challenges, collector showcases, and artist recognition programs designed to keep selected work visible beyond a single announcement. The Moir Collectors Catalog extends that approach into a publication created for looking, discovering, and revisiting.
